

This cable kit connects the PackBot EOD Control Console (PCC) to an external video device (a video recorder, a frame grabber, a TV monitor, etc). Users can record audio and video or display the information on a secondary monitor screen.

The cable set consists of:

1 off Audio-/Video-Flat cable

Length:	2,5m
Connector PCC:	Fischer Type 104, 9-pin
Connector recording side:	3x Cinch: yellow = Video red = Audio left white = Audio left

After production every cable set is tested individually.

Specifications are subject to change without notice.
